

Current Events For Kids

December 2007—American students are not doing as well in math and science when compared to students of other nations. Many students enrolled in public schools are more concerned with behavior issues than academics. Do you think this problem exists in homeschooled children?

What would be a way to increase math or science activities in your daily routine?

How will math or science education help you in your future goals?

Here are some websites with games to improve math and science skills!
